

Gerard Fernández García

Barcelona | +34 663 196 442 | fernandezgarciagerard@gmail.com

Frontend Developer with experience delivering scalable solutions using Angular17, NgRx, Jasmine, and Cypress. Focused on building high-performing, accessible, and user-friendly features that increase and boost company sales. Experienced collaborating with cross-functional teams to create reusable and consistent UI components. Involved in developing Angular CDK libraries to reduce duplication and improve scalability. Hands-on experience with CI/CD pipelines, production releases, bug fixing, and live environment support. Strong background in Agile/Scrum methodologies, adapting quickly to changing priorities, and aligning technical delivery with business goals.

Experience

Mid Frontend Developer Jun. 2022 - Present

Capitole Consulting

Working for an external client as an end customer

Mid Frontend Developer Mar. 2023 - Present

Vueling

Worked as a Frontend Developer within a product-focused team responsible for delivering commercial web solutions. Developed and optimized features related to ancillary services with a strong focus on performance, accessibility, and user experience. Collaborated closely with cross-functional teams to integrate reusable components and improve consistency across the platform. Contributed to the creation of Angular CDK libraries to simplify development and reduce duplicated code. Participated in CI/CD release processes, production deployments, bug fixing, and ongoing application support. Worked in Agile/Scrum environments, helping define roadmaps and adapt delivery plans to evolving business priorities.

Junior CI & RPA Sept. 2022 - Mar. 2023

Vueling

Robotics Process Automation
